

BUSINESS IN SZCZAWNICA

CONFERENCES • EVENTS • INTEGRATION PARTIES

In 2004, when the heirs to Count Adam Stadnicki regained their former estate and rights to the Szczawnica Spa Resort, they established the family-owned Thermaleo company to manage the business. From that moment on, Andrzej Mańkowski, grandson of the Count, and his family have invested significant financial resources in the rebuilding of the resort.

What the Mańkowskis found in Szczawnica was far from being in ideal condition, but step by step everything has been both scrupulously restored based on archival photos and also updated to meet the requirements of modern European standards. The Thermaleo company is currently managed by three siblings – Helena, Christophe, and Nicolas Mańkowski – who are continuing the vision of their forefathers; to create in Szczawnica a resort with a full range of services and a rich culinary, cultural and accommodation offer. For eight years, thanks to their efforts and commitment, a resort in the true meaning of the word has been coming to life, including restaurants, cafes, hotels and villas, cultural and recreation centers.

In 2008, the first projects of the Thermaleo Group were inaugurated when Café Helenka, the Mineral Water Bar, and the Mineral Water Bar Gallery were opened at Plac Dietla. From that moment on, each passing year has brought new projects and new openings – in 2009, the first five-star hotel in the region was opened, the Modrzewie Park Hotel, and in 2010 the Spa Resort Museum followed. The year 2011 saw the completion of one of the company's largest investments, the total reconstruction of the Guest Manor, one of the pearls of Szczawnica, according to its original plan, complete with its beautiful theatre and ballroom and the Jazz Bar restaurant. The following year witnessed the revitalization of two municipal parks in cooperation with the Town Council and cofounded by the European Union, the renovation of the Navigator Hotel and Villa Marta, as well as investments in the RAJD stud farm.

Over the years, the company has been intensively developing in a range of different directions, and this is just the beginning. Today we operate in the hotel, gastronomy, cultural and tourism sectors, in the process transforming Szczawnica into a resort of European standard. Szczawnica is the perfect place both for those who wish to combine work and pleasure, as well as those wishing to organize larger congresses or conferences.

Szczawnica is a picturesque town with a rich history only 110 km from Kraków. The resort is the perfect place for relaxation and also for congresses, conferences, business meetings and company team-building trips amidst the beautiful scenery of the Pieniny mountains.

The ample accommodation and restaurant facilities available, full range of tourist attractions advantage and regional charm of the place make Szczawnica the ideal venue for your event. An additional plus is the possibility of enriching your event with any one of numerous recreational activities available, after long hours spent listening to speeches and lectures, or during additional days before or after your event. The resort features walking, cycling and equestrian paths amongst the peaks of the Pieniny mountains, rafting on the Dunajec river, quiet walkways in the nearby nature reserves a chair-lift to the Palenica skiing area, where there is a bobsled track and in winter skiing and snowboarding trails or a fun-filled sleigh ride by torchlight.

We invite you to organize your event in one of our venues. Depending on the number of participants and type of event, we offer the following:

- a large venue – the stylish **Guest Manor**, ideal for congresses, conferences, and product presentations, including large-scale ones such as automobiles
- a medium-sized venue – the **Hotel Navigator**, suggested for smaller conferences, business meetings and motivational or team-building events
- a smaller venue – the five-star **Modrzewie Park Hotel**, for exclusive conferences for board members or meetings with key clients

Additionally, we can organize many extra attractions for participants, so that their stay in Szczawnica will be a memorable business event. We suggest sleigh rides or carriage rides at the RAJD stud farm, an evening grill accompanied by a folklore group, a Sunday brunch, concert and artistic performance, or one of many other possibilities.

We offer accommodation for participants at our hotels and villas and also a rich variety of food options for business dinners, banquets or evening meetings.

Are you tired by the run-of-the-mill conference offer and want to arrange something exceptional for your clients, business partners or employees? Szczawnica is the perfect place to transform an ordinary conference into a fascinating experience.

Have a closer look at our full offer.

Dworek Gościnnie

The Guest Manor, the personification of the golden years of Szczawnica, is back again in its full glory, dazzling with its scope modernity and unique style. Located in the heart of the resort and surrounded by the greenery of the Upper Park, it combines the charm of a bygone epoch with fully modern functionality. The comprehensive IT infrastructure means that even the most complex events can be coordinated.

In the case of conferences or congresses, we propose to organize general meetings in the main hall of the Manor, which accommodates 362 in theatre style seating. Moreover, for those companies who wish to make a product presentation, there are several display areas available in the foyer, allowing participants to get a closer look at your product.

Catering tables can be arranged in the spacious hall, and during breaks guests can relax on sofas and armchairs in the library. After lectures, we suggest an evening concert or banquet in the main hall. After the steps to the stage have been removed, the space which during the day was a conference room now becomes a luxurious hall with a parquet floor of 420 m² where tables can be arranged in a convenient way either for more private conversations set to gentle music flowing from the stage or for dancing.

The main hall is also the perfect place for product presentations or fashion shows; depending on the option chosen, the Guest Manor can accommodate nearly 600 persons. The building has been designed so that large-scale products, such as automobiles, can also be displayed. Large entrance doors mean that a show automobile can be driven inside the Manor and located in the main hall. The placing of the podium and tables can be arranged individually to suit every client's needs.

Furthermore, the Manor can organize presentations outside of the building. The impressive architecture and its wide courtyard create an excellent backdrop for the presentation of many kinds of products. The piece-de-resistance is the exquisite cuisine and professional staff dedicated to making your event shine.
